### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:

Donohue shows a ramp-rack article used in combination with the bed of a pickup truck as either a downward sloping ramp to the ground on which the vehicle rests and as a rack mounted in pockets along an edge of the bed for containing cargo resting on the bed. While the article of Donohue has the lengthwise extending body with a first end is shaped to engage the edge of the vehicle, a second end contacting the ground, a generally continuous working surface between the first end and the second end, and two spaced apart stakes projecting transversely from on edge of the body to be held vertically in place along the edge of the vehicle bed, the body does not have two spaced apart pockets located along the side of the body which is opposite the side from which the stakes project for receiving the stakes of a second like ramp rack article or stakes that are tapered and surfaced with a resilient material for contacting the interior of a pocket in wedging fashion as required by the independent claims of the present invention and the use of such pockets and stakes would not have been obvious to one of ordinary skill in the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark A. Deuble whose telephone number is (703) 305-9734. The examiner can normally be reached on Monday through Friday except for alternate Fridays.
